\*\* If there's a flavor, I've probably invented a mousse flavor to match - use your imagination, I'll come up with the recipe.

All wedding cakes are decorated White, Ivory, Pastel, or Chocolate Butter Cream.

My butter cream is half as sweet and lighter than most bakery butter creams. The price per person, quoted in the flavors, reflects the price of the structured cake. Additional servings are handled by sheet cakes torted just like the wedding cake at less per person according to amount needed. This does not apply to cheesecake wedding cakes. Set up and delivery charges vary according to distance of travel and floral arranging. Set up charges start at \$35.00 and run over \$150.00 for distances over one hour away. Take home bridal tiers start at \$35.00. Flowers should be provided by your florist so that they match the rest of the décor and a charge will be added according to difficulty of arrangement.

Fondant covered cakes or fondant designs added to cakes are available. Prices start at \$6.00 per person.

## **Compare quality - Compare portion size - Compare price**

The average dessert in the average restaurant is now over \$5.00 per person. Our pricing is extremely reasonable considering the quality of the ingredients, artwork, and personal attention that goes into each and every cake. With TaDah, you will know your cake artist and see actual pictures that I have done.

\*\* Ask about special pre-pay cash discounts.

\*\* Prices subject to change without notice. 1/07

\*\* Free staff cake provided.
